

Lions Club Visitation Report Explanation

During Lions club meetings there are some standard activities that are recommended by Lions International, or that have become standard procedures at most successful clubs. During club visitations it is helpful to note if these activities are being carried out, providing an opportunity to offer suggestions and assistance for holding better meetings. The State Leadership Committee developed the *Lions Club Visitation Report* based on similar forms which have been used around the state by many districts. This will hopefully be a useful tool for the clubs and district officers. These forms are available from the Ohio Lions Office, phone: 614-539-5060. And available on the State website as a downloadable form to be printed out.
